PROFIT FORECAST FOR THIRD QUARTER, 2021

The Management of Prestige Assurance hereby submit its profit forecast for the Third quarter ending 30th September, 2021.

	N' Million
Turnover	<u>7,500</u>
Profit before Taxation	1,250
Taxation	<u>(250)</u>
Profit after Taxation	1,000

This profit forecast is based on the following assumptions that;

- a. There will be no serious Government restrictions of trade that will affect the insurance business.
- b. The company will not suffer any major catastrophe which will necessitate reduction of investment portfolio for claims payment.
- c. There will not be any considerable reduction in the level of interest rate.
- d. The capital Market activities will improve significantly from the bearish position to the bullish.
- e. The country political climate shall be stable for carrying out business activities across the nation.
- f. The company will continue to deal with its present range of insurance policies.
- g. The company will enhance its present treaty arrangement due to recapitalization.
- h. The accounting policies will not change.
- i. The basis of taxation will not change materially.
- j. The company would maintain its present work force and additional hands will be employed to take care of increased business activities.
- k. There will be vigorous effort to improve upon the present market share.
- l. A part of the Proceed from recapitalization will be invested in government gilts to enhance investment income.
- m. There shall be no protest, pandemic and other pandemonium which might affect business transactions negatively.
