Lagos, 31. December, 2019

THE PROCUREMENT OF A NEW RADIOTHERAPY MACHINE BY EKOCORP PLC

Please be informed that Ekocorp Plc, the only private hospital providing radiotherapy service in Nigeria, pursuant to its transformational agenda has acquired and is in the process of installing a state of the art Radiotherapy Machine (**Gamma Beam 100 Equinox EBRT**) to cater for the cancer patients of Nigeria who constitute the largest number of medical tourists of the country.

The Company is not relenting in maintaining its leading role in the healthcare industry through quality man power and technology, all geared towards efficient service delivery for the benefit of every citizen of the Nation. Thus, living up to its vision statement, 'To be the leading private sector provider of high quality healthcare services, training and research in Nigeria'.

Thank you.
