**NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 2<sup>ND</sup> QUARTER OF 2021**

---

**1. General Corporate Information**

Presco Plc was incorporated in Nigeria on 24<sup>th</sup> September, 1991 as Presco Industries Limited, a private limited liability company under the Companies and Allied Matters Act, and became a public limited liability Company in February, 2002. Presco Plc's shares are actively traded on The Nigerian Stock Exchange with the Siat Group holding 60% while the Nigeria Public holds 40%.

Presco is a fully integrated agro-industrial establishment with oil palm plantations, palm oil mill, palm kernel crushing plant and vegetable oil refining plant. Presently, the only one of such in Nigeria.

Presco specializes in the cultivation of oil palm and in the extraction, refining and fractionation of crude palm oil into finished products.

Presco supplies specialty fats and oils of outstanding quality to customers' specification and assures a reliability of supply of its products all year round. This is made possible by the integrated nature of the company's production process.

The company operates from four estates: Obaretin Estate, Ologbo Estate and Sakpomba Estate in Edo State and Cowan Estate in Delta State.

The address of the Company's registered office is Obaretin Estate, Km 22 Benin/Sapele Road, Benin City.

**2. Basis of Accounting**

These interim financial statements are unaudited and have been prepared in accordance with IAS 34 Interim Financial Reporting, should be read in conjunction with the company's last annual financial statements as at and for the year ended 31 December 2020. They do not include all of the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the company's financial position and performance since the last annual financial statements.

**Basis of Measurement**

The condensed interim financial statements have been prepared under the historical cost convention, except for the revaluation of biological assets.

**Functional and Presentation of Currency**

The condensed interim financial statements are presented in Nigeria Naira which is the Company's functional currency. Except otherwise indicated, rounded up to the nearest thousand

**3. Judgements and Estimates**

In preparing these interim financial statements, management has made judgements and estimates that effect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

#### 4. Significant accounting policies

The accounting policies applied in this interim financial report are consistent with those applied in the annual financial statements as at and for the financial year ended 31 December 2020.

A number of other new standards are effective from 1 January 2021 but they do not have material effect on the Company's financial statements.

#### Financial Assets

	Level 1	Level 2	Level 3	Total
	N'000	N'000	N'000	N'000
<b>Financial Assets: Loans and receivables</b>				
Cash and bank balances		2,585,092		2,585,092
Trade and other receivables		6,962,759		6,962,759
		9,547,851		9,547,851

#### Financial Liabilities

	Level 1	Level 2	Level 3	Total
	N'000	N'000	N'000	N'000
<b>Borrowings</b>		13,235,461		13,235,461
Trade and other payables		11,541,335		11,541,335
Overdrafts		6,364,154		6,364,154
		31,140,950		31,140,950

The fair value of the financial assets and financial liabilities included in the level 2 category above have been based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

#### Financial instruments in Level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange dealer, broker, industry company, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Instruments included in level 1 comprise primarily NGX equity investments classified as trading securities or available for sale.

#### Financial instruments in Level 2

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

#### Financial instrument in level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### B. Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy counterparties, as a means of mitigating the risk of financial loss from defaults. The company only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the company uses other publicly available financial information and its own trading records to rate its major customers. The company's exposures to its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee annually.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings.
