

ANOTHER GREAT STEP AS AutoReg DEBUTS IN ADAMAWA STATE.

Courteville Business Solutions PLC is pleased to announce the approval effective February 2014 by the Adamawa State Government for the automation of Motor Vehicle Administration Documentation process, using the tested and proven AutoReg Business Solution.

The AutoReg platform is a web-based business solution for motor vehicle administration documentation, currently deployed through about 4,500 processing points in 19 states across Nigeria and the Republic of Sierra Leone.

The AutoReg business solution has shown over the years as the best business solution for the collection and administration of road taxes in Nigeria, by optimally collecting revenue due to various State Governments. It has created the best online, real-time records, for Government and its agencies; eliminating cases of duplicated registration of motor vehicle number plates and has practically dislocated touting from all the motor licensing stations in each state.

Since the introduction of the AutoReg business solution to the West Africa market, it has generated employment in multiples of thousands, created e-registration solution for National Agency for Food and Drug Administration and Control (NAFDAC) for registration of drugs, foods, chemical and monitoring of approval processes in a more conventional and system compliant way.

The Nigerian Insurance Association (NIA) adopted the AutoReg model for the Insurance Industry Database recently designed and developed by Courteville and currently in use by all the insurance companies in Nigeria for upload of their third parties insurance policies in the industry. This has gained wide acceptability as a model for standardized monitoring and verification process that will unify the insurance industry towards disengaging the activities of touts in the issuance and verification of insurance policies in Nigeria.

The AutoReg is a Pan-Nigeria project developed and designed to run in Nigeria and Africa as well as the Caribbean, where discussion with various Governments are at different stages.

Courteville Business Solutions PLC is excited about potentials for the accelerated AutoReg expansion throughout Nigeria and sees the accomplishment in Adamawa State as another important milestone, in solidifying the AutoReg franchise network within and outside Nigeria.
